Calculate Your Team's EARNING POTENTIAL

Our larger events typically run at least 8 hours in length, with some smaller events that average 6 hours. Each group member who works raises at least \$13.00 an hour for each hour worked. Some venues pay a higher rate based on the event.

Simply multiply the number of hours times the number in your group times the hourly rate to calculate your daily earnings. There are no minimums or maximums to your earning potential, and most of our events are year-round, offering multiple chances for fundraising and allowing teams to work around busy sports seasons.

Work as many events in a year and watch the money roll in for your group:

10 members = $\$1,040 \times 6 \text{ events} = \$6,240$
20 members = $\$2,080 \times 8 \text{ events} = \$16,640$
30 members = $\$3,120 \times 12 \text{ events} = \$37,440$
50 members = $\$5,200 \times 20 \text{ events} = \$104,000$
